"By a thorough knowledge of the natural laws which govern the human system, and by a careful application of the fine properties of well selected Cacao, Mr. Epps has provided for our country a valuable article of food, a medicine which may save many heavy doctor's bills. It is the best preventive of all diseases, and a constituent or may be gradually built up until strong enough to resist every tendency to disease. Hundreds of physicians and thousands of patients have vouch'd wherever there is a weak point. We may expect much good from keeping supplies well furnished with pure blood."—Dr. J. H. K. Smith, M. D., of New York.

"Cocoa is simple with heating water or milk, and is easily digested by the system, leaving no residue."
